TK5NI/P & F/HH2HM ---> With regard to TK5NI/P [425DXN 277], LES NOUVELLES DX (#397) states that "as a matter of fact this 'station', who asks for QSL via F/HH2HM (and everybody knows that this call does not exist any more and it has no reason to be mentioned), no one else is but the very same F/HH2HM. Not to mention F/HH2HM's past island activities (surely conjectural, as far as it can be judged)", for which the authoritative French bulletin's editors believe that "a withdrawal pure and simple of the DIFM and IOTA credits" is "more than salutary".

YEMEN ---> Carl, WB4ZNH reports the following: "I spoke to the Director General of Telecommunications in Sana'a. Amateur Radio is still NOT permitted there. Apparently the Italian who operated there this past summer did so without official permission" [425DXN 268].
